

Office and Growth Unit Rental Prices 2017/2018

The Bridge Innovation Centre is able to offer a choice of different accommodation type and size to suit your current needs. As your business grows, there is the option of moving to a larger or more specialist unit whilst retaining your address and phone number. Within the main building offices from 26.5 sq m (286 sq ft) to 101.25 (1,090 sq ft) are available on flexible licenses where costs including rents, services charges and a high bandwidth broadband connection are combined into one single payment. This package leaving only the cost of telephones calls and business rates to be met (many offices currently subject to small business rates relief, please ask for more details). The central print room which can be used by all members provides, at minimal costs, facilities for photocopying, printing, faxing, binding and laminating. Further information about these and other facilities can be found on the facilities fact sheet.

Growth Units

In addition to the offices within the main building the Bridge Innovation Centre offers practical workshop space. Each workshop includes an office, generous workspace and its own dedicated plant room which houses a gas boiler, the utility meters and the main power distribution board.

Workshops range from 125.4 sq m (1350 sq ft) to 273.1 sq m (2940 sq ft). Occupiers are responsible for paying their own utilities and Business Rates and a basic rental of £6 a sq ft.

With the prior agreement of Pembrokeshire County Council tenants may undertake interior alterations which can provide a full first floor which effectively doubles the floor area of the workshop. This effectively reduces rent to £3 a sq ft and can create a large office space, computer rooms, clean rooms or other types of laboratory space.
